INTERNATIONAL CONFERENCE
APRIL 21–22, 2020

AACHEN POLYMER OPTICS DAYS INTERNATIONAL CONFERENCE APRIL 21–22, 2020

Topics

- Injection molded optics
- Continuous production of optical films in R2R
- Materials
- Illumination and free form optics
- Tool and mold making
- Metrology technologies
- Additive manufacturing of optics and optical components
- Digitalization in optics production

Organization

This conference is hosted by the Fraunhofer Institutes for Production Technology IPT and for Laser Technology ILT as well as the Institute for Plastics Processing IKV at RWTH Aachen University.

Conference venue

Hotel Pullman Aachen Quellenhof, 52062 Aachen, Germany

Contact

Helen Sophie Kolb, Fraunhofer IPT

Phone +49 241 8904-287 | helen.sophie.kolb@ipt.fraunhofer.de

After the successful events in 2014, 2016 and 2018 »Aachen Polymer Optics Days« will take place for the fourth time on April 21–22, 2020 in Aachen. The international conference focuses on the latest trends and issues in the field of polymer optics and provides a wide networking and information platform for experts.
