Aachen, 2014/07/04

1 CENTiMO Poster

The poster aims to make the CENTiMO Project public. The potential target audience are:

- Industrial companies working in the field of optics, glass manufacturing, mold making
- Scientist from relevant institutes and universities focussing on glass processing and optics
- All interested people from the general public

The Poster is presenting basic information on the project and on the desired process chain. All project partners are included with their logos.

The poster has been printed and is permanently presented in the Fraunhofer IPT shopfloor. Every day, many industry partners visit the Fraunhofer IPT and will see the poster during a shopfloor visit. Furthermore, the poster might be presented on trade fairs and conferences. Every project partner will be provided with posters as required.
